

Geocaching in Bermuda

INTRODUCTION TO GEOCACHING 441

This introductory tour of SPITTAL POND NATURE RESERVE is provided to encourage participants, both local and visiting to combine the high tech treasure hunting game Geocaching, with Bird watching. There are about 375 species of birds recorded in Bermuda and about 20 of them are resident.

Bermuda's Endemic Birds

(that cannot be found anywhere else in the world)

Bermuda Petrel - Also known as the Cahow. This is Bermuda's National Bird. This nocturnal bird spends most of its time in the open ocean feeding on fish, shrimps and squids.

White-eyed Vireo - This small songbird is also known commonly as "Chick of the village" in Bermuda.

Bermuda's Native Birds

(arrived in Bermuda on their own, became native, but can also be found elsewhere in the world)

Longtail - This White Tailed Tropic bird is locally known as Longtail because of its single long tail feather.

Eastern Bluebird - They have bright blue plumage and compete with the house sparrows to acquire artificial nest boxes to hatch.

Green Heron - These small dark colored water birds can be found

feeding on fish in wetland and lake areas in Bermuda.

Introduced Species

(introduced to the island with human assistance)

Kiskadee - Has been so named from the sound it makes: kis-ka-dee! They were introduced to control lizards. But they chose to eat fruits, seeds and eggs of other birds.

Starling - They are small black birds growing up to some 8.5 inches in size and have speckles of white and brown on their bodies.

Bermuda is paradise for Bird watchers and Geocachers.

Eastern Bluebird Pair

Tour Overview:

Meet your local guide at the parking lot at the East entrance of SPITTAL POND NATURE RESERVE to start your Geocaching, Bird watching, Sightseeing Tour.

- The basic idea is to locate hidden containers, called geocaches, using GPS technology.
- Explore Spittal Pond, located in Smiths Parish, it spreads over some 64-acres of land area. It is the best bird watching location in Bermuda.
- Geocache – if you are a newcomer to the game or an avid geocacher. There are eight caches within the Reserve to focus on.
- Wear sturdy shoes and bring along water and a snack.
- We recommend you seek in pairs or groups, up to 6 people to provide a more personalized experience.
- Ends at West Entrance to Spittal Pond Nature Reserve.

Fill in and complete the coordinate info and email it to littleislandbigadventure@gmail.com. You will be entered to win free entry ticket to our first MEGA Event. For detail of all LIBA TOURs, availability and pricing, please contact RoseAnn at 1- 441-704-7018 or email us to reserve your tour date
